

Eco-committee Application Form 2024

What does the Eco-committee do?

An Eco-committee is a group of pupils who act as representatives for their peers in discussing environmental issues and how we can make our school a more environmentally friendly place. This is a brilliant way of representing and contributing to the pupil voice in your school. Students are elected to represent the views of their peers, along with improving the environmental quality of their school.

As part of the Eco-committee, the pupils will complete an Environmental Review in order to identify the key topics they would like to focus their efforts into making improvements in. Throughout the year, the eco-committee will monitor and evaluate their projects and activities.

The Eco-committee will meet every 2 weeks with Miss Goddard to discuss and implement ways to improve the school's environment.

How to apply.

If you would like to be considered to represent the eco-committee for your class, please prepare an A4 poster explaining why looking after the environment is so important. This could be a hand drawn poster or a digital poster made on the computer.

Your poster could contain:

- Reasons why we should care for our environment
- How can we improve the environment
- What do you already do at home to help

Please be prepared to explain your poster during the week of **21st October 2024.**

Classes will vote for one candidate to represent their class.

Hampton Junior School

Kind regards

Miss Goddard
