

Hampton Junior School

31st October 2023

Dear Parents / Carers

**Map Skills and Orienteering Workshops – Thursday 11<sup>th</sup> January 2024**

During the Spring term, Year 4 will be taking part in an orienteering workshop to support their geography learning. The session will include gathering information from Ordnance Survey maps, using compasses to set bearings, locating North without a compass, measuring distance by using pace and taking part in a mini-orienteering challenge related to the school's environment.

We rely on parental contributions in order to be able to run the wide variety of visits and workshops that the pupils at HPP enjoy. The contribution we are requesting on this occasion for each pupil is £5.60. Whilst payment of this is voluntary, if we do not receive sufficient contributions in order to run the visit/workshop then we will cancel it and a full refund will be made. Should you require support with payment, please speak to Mr James.

Please note that the majority of this session will take place outside of the classroom. Due to this please ensure that your child has been provided with a coat that has a hood in case of rain.

Thank you

Miss Peaty      Miss Bienge      Mrs Simms      Mrs Clark
