## **Health & Safety Policy**

### **Introduction**

The Governing Body and Leadership team of both Hampton Infant School and Nursery and Hampton Junior School recognise and accept their responsibilities under the Health and Safety at Work Act and other Health and Safety legislation. The schools and Governing Body will take all steps in their power to meet these responsibilities.

The schools aim:

- To provide a safe and healthy environment for all users of the schools.
- To minimise the potential for accidents and ill health.
- To deal with accidents and health issues if and when they arise.
- To enable pupils and staff to develop an increasing responsibility for their own health and safety and that of others.
- To provide pupils and staff with understanding, skills and strategies that are transferable to any setting.
- To incorporate health and safety into the whole school curriculum.

### **1. General**

- 1.1 The Hampton Primary Partnership (HPP) Governing Body recognises that the ultimate responsibility for the implementation of the Health and Safety Policy within the schools of the partnership is theirs. The Governing Body notes the provisions of Section 3(1) of the Health and Safety at Work Act 1974, which states that it is the duty of deputy and every employer to conduct his or her undertaking in such a way as to ensure, so far as is reasonably practicable, that persons not in his or her employment who may be affected by it are not exposed to risks to their health and safety.

The Governing Body accepts that it has a responsibility to take all reasonably practicable steps to secure the health and safety of pupils, staff and others using the schools' premises or participating in school-sponsored activities. It believes that the prevention of accidents, injury or loss is essential to the efficient operation of the schools and is part of the good education of its pupils.

- 1.2 The arrangements outlined in this statement and the various other safety provisions made by the Governing Body cannot prevent accidents or ensure safe and healthy working conditions. The Governing Body believes that only the adoption of safe methods of work and good practice by every individual can ensure everyone's personal health and safety. The Governing Body will take all reasonable steps to identify and reduce hazards to a minimum. However all staff and pupils must appreciate that their own safety and that of others also depends on their individual conduct and vigilance while on school premises or while taking part in school-sponsored activities.

- 1.3 This Health and Safety Policy Statement and related arrangements for implementation are not a substitute for the above-mentioned legislation, or the Health and Safety Policy Statements produced by Richmond Borough Council and by the Education Department. Copies of these statements, policies and the Richmond Borough Council Health, Safety and Welfare Manual of Guidance are available in the school's Administration Office.
