

Dear Parents,

## Head lice and nits

Head lice and nits are very common in young children and their families. They do not have anything to do with dirty hair and are picked up by head-to-head contact. Today we have been notified of a case in your child's class so please can we ask you to check your child's hair.

Please see the attachment to see how to look for head lice and if necessary treat your

child. Yours sincerely,

Helen Lockey

Executive Head
