Maths Curriculum Workshop

Dear Parents/Carers

We are delighted to invite you to a maths curriculum workshop on **Tuesday 5th December at 9am** in the Rose Hall. During this session we will share information about the organisation of the maths curriculum, how we implement it within the classroom and we will provide you with further ideas of how you can support your child at home.

At Hampton Junior school we follow a maths mastery approach which is based on research and is a proven method which enables children to achieve success in maths. Maths mastery ensures there is an appropriate level of support and challenge which results in embedding knowledge and learning into a child's long term memory. It is important that primary age children are able to be fluent in their mathematical thinking to help them reason and problem solve.

We very much hope that you will be able to join us for this session.

Kind regards,

Miss Cooper
KS2 Maths coordinator
