

The Pupil Voice Champion News

Our Welcome

Welcome to this year's first instalment of the Pupil Voice Champion news! Our newsletter is to inform you of all the exciting things that we...the Pupil Voice Champions (PVC) have been involved with this term. The PVC's this year are...

Class 5: Saanvi and Vinu

Class 6: Thomas and Inaya

Class 7: Scarlett and Thomas

Class 8: Harry and Nora

Class 9: Morgan

Class 10: Dylan

Class 11: Ethan

Class 12: Dunya

If you are not sure who we are see if you can spot us wearing our badges that we designed ourselves.

Our main focus **this year** is going to be learning about and raising awareness of climate change.

Being Elected

Being elected as a pupil voice champion comes with responsibilities. Dunya said that she is excited to be a PVC because she is always helpful towards others and she wants to help in assemblies. Vinu knows that he is a good role model which makes him an ideal PVC because other children in his class look at his amazing behaviour.

Children in need

You may have spotted us in the playground on the morning of children in need shaking our buckets to get your donation. In a meeting we talked about the importance of children in need and made posters to advertise it round the school. We then helped Miss Tester in her assembly.

Healthy body and mind

We have been looking at the importance of having a healthy body and mind. During healthy body and mind week we gave out heart shaped messages to children in our classes showing our appreciation for the amazing things that they do every day.

Climate change

We have been meeting to discuss what climate change is and what we can do to help stop it from happening.

We each designed our own climate change flag that has been entered into a competition set by the Richmond borough. The winner gets a signed book from David Attenborough- fingers crossed!

Below is a photo of our climate change display that we created, it is in the Year 2 wing. In the spring term we will be taking on a new climate change projects so keep a look out.

Raising money for the school

The fair raises lots of money for the school and we knew that we wanted to be involved! We asked each class to make their own Christmas decoration that could be sold back to you! We enjoyed doing our bit to raise money for the school at the fair- it was really fun giving everyone their change and finding the right decoration for each child. Thank you to all the children for making such beautiful things and to the parents for coming to buy the decorations at the fair. We raised £160 in total.

Coming up...

Lots of exciting things to look forward to in the spring term. We will be doing more to raise awareness of climate change around the school. Read all about it in our spring PVC news.
