Oral Health Session for Reception Parents/Carers

Dear Parents/Carers,

Oral health is now part of the Early years Foundation Stage statutory framework which means that within in the curriculum offer the children learn about oral health. It is also important that we work in partnership with parents/carers to support good oral health habits. To support us with this we have invited the Oral Health Promotion Team at King's College Hospital to provide a Children's Oral Health session for parents/carers.

The Session will take place on the Friday 24th June at 9.00am.

The team will advise about tooth brushing, dental friendly foods, dental visits, fluoride varnish application and much more.

This is a great opportunity to increase your awareness of the importance of oral hygiene in young children and to find out how to best care for your children's teeth. We look forward to seeing many of you at this session.

Kind regards,

The Reception Team
