## About Me

My name is Karen Finnegan and I am your Parent Support Advisor here at Hampton Primary Partnership. I have worked across the partnership for the past three years supporting parents and carers with many issues that affect family or school life.

I have been lucky enough to have worked with children and families for over twenty six years and have built up a wealth of knowledge and experience during this time. I have two grown up children of my own so I know first-hand how difficult being a parent can be at times.

Sometimes life can be challenging and parenting can be difficult. Please feel free to contact me if you need some advice or support.
