

Year 5 Summer Home Learning Resources

Dear Year 5,

We are so proud of all the hard work you have put into your home learning over the past few months and it was lovely to have most of you back at school before the end of the school year. Whilst we are sure you will want to have a well-earned rest over the summer holidays, many of you will also want to keep your brains busy so we've put together a list of resources to enable you to continue with your home learning (in between having some fun!). These resources will be on the school website for the duration of the summer holidays.

Have a great summer,

From

Mrs Hawes, Miss Newton, Mrs Bax and Mrs Aarons

English - Spellings

We have saved a number of resources which practise the year 5 and 6 statutory spellings. There are correct the mistake, word search and crossword activities.

Reading

The E-Book of 'Firebird' is saved together with questions for chapters 1 to 5. If you open the chapter document, there is a YouTube link at the top which will enable your child to hear the chapter being read aloud if they wish or they can read it themselves from the e-book.

There are also a number of activities saved on Education City which focus on comprehension of different types of text.

The year 5 reading challenges are available for you to complete and a list of useful website links are also included.

Writing

An activity booklet including range of grammar and reading activities has been saved. We have also added the year 5 writing challenges. We would suggest that the task is broken down into a structure the children are used to which is: one day planning, one or two days writing and one day editing their writing.

There are also a number of activities saved on Education City.

Maths

There are three maths activity booklets which reinforce the skills taught this year. There are also a number of activities saved on Education City and information containing useful links.

Science

We have saved activities for you on Education City which revised the units of work you have covered in year 5. These are: **Living things and their habitats, Properties and Changes of Materials, Earth and Space and Forces.**

There are also many learning clips on BBC Bitesize: <https://www.bbc.co.uk/bitesize/subjects/z2pfb9q>

Look at the units on 'Forces and Motion', 'Earth and Space' and 'Materials'.

History

Why not watch the BBC Bitesize clips on 'Tudors and Stuarts' and 'Maya Civilisation'.

<https://www.bbc.co.uk/bitesize/subjects/zcw76sg>

Geography

Why not watch the BBC Bitesize clips on 'Rivers'. This can be found in the 'natural world' section. Also, 'Time Zones' and 'Longitude and Latitude' in the geography skills section.
